# Acknowledge

Firstly, we would like to send a great thank to Mr Nhân - our professor for the devoted supports during the time for eProject.

Secondly, through my eProject, we can learn what and how we should do to build the website and perfect our skill such as below:

- ✓ Team work and respect another member.
- ✓ Practice step by step i.e. laddered approach.
- ✓ Build a larger more robust application.
- ✓ Usage of certain utilities in applications designed by user.
- ✓ Single program to unified code leading to a complete application.
- ✓ Learn implementation of concepts in a phased manner.
- ✓ Work on real life projects.
- ✓ Give a real life scenario and help to create applications more complicated and useful.

Finally, we also thanks so much for Team eProject of APTECH India. They give the eProject title that is very real and alive.

Your Sincerely,

Team Group 3.

# Synopsis

The Objective of this program we aim is to give a sample project to work on real life projects. These applications help us build a larger more robust application.

The objective is not to teach us HTML/JavaScript but to provide us with a real life scenario and help us create basic applications using the tools.

Hence, we can revise the chapters before we start with the project.

This project is meant for students like us who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

Through eProject, we know how to do team work, help and respect each other. We have a new skill to make the plan and finish the ideal project.

It is very essential for us that will have a clear understanding of the subject. We think we should go through the project and solve the assignments as per requirements given.

And get back *eprojects@aptech.ac.in* as the assigned schedule.

<b>Design Plan:</b> <b>PETBot Company</b>	<b>Document Name:</b> Problem Definition	<b>SWD/Form No.01/PD/Ver1.0</b>
<b>Effective Date:</b> 28-11-2020	<b>Version</b> 1.0	<b>Page No:</b> 1 of 26

## Problem Definition

PETBot company, are one of the eminent business entities engaged in manufacturing, supplying and exporting a wide range of PET/PP/PC Bottles. The company has state of the art manufacturing unit of PET bottles.

They have PET Bottles making Plant. Available in customized form, their machines are used by several manufacturing companies in making of packaged drinking water, household chemicals, pharmaceuticals, edible oils, liquor, hair care, pesticide etc.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

### Requirement Specification:

The Web site is to be created based on the following requirements.

- 1) The Home Page should be created making use of Sections with a suitable logo, the header section can be added which will show images of various bottles.
- 2) The site must contain the links to navigate through any category for the information.
- 3) Links of bottles can be categorized like (Bottles, Jars, etc.)
- 4) Specification and Pricing of Bottles can be added along with the images.
- 5) Gallery section can be added for viewing different images.
- 6) Feedback must be allowed to enter by the viewer
- 7) Site map, Gallery, about us, Queries link must be added.

<b>Effective Date:</b> 28-11-2020	<b>Version</b> 1.0	<b>Page No:</b> 2 of 26

- 8) The complete description must be allowed to get download as pdf or doc file.
- 9) The advertise section with various facilities provided should be mentioned.
- 10) There should be a “Contact Us” page which will have the Address of the Company which is as follows and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using GeoLocation API (eg. GoogleMaps).

### **Hardware/ Software Requirements**

#### **Hardware**

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

#### **Software**

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

## II. Product:

The screenshot shows a web browser window displaying the PETBot Company website. The title bar reads "Document" and the address bar shows "File | D:/Semester-1st/ePROJECT/CODE/Product.html". The main content area has a yellow-to-green gradient header with the text "PETBot COMPANY" in blue. Below the header is a navigation bar with links: HOME, PRODUCT, CONTACT US, REGISTER, LOGIN, and SITE MAP. On the left, there's a sidebar with colored buttons for "Food and Sauce", "Pharmaceutical", "Healthcare", "Industry", and "Honey jars". The main content area displays four categories: "Food and beverage -- Pharmaceutical" (with images of food jars, a food bottle, and pharmaceutical jars), "Healthcare -- Industry" (with images of healthcare bottles and jars), and "New Product" (with an image of honey jars). To the right, there's a sidebar with links: "Quick Order", "Our Catalogue", "Feedback", and "Our Gallery". At the bottom, there are contact details: Hotline: 028999999, Email: Nhatlchts2009030@fpt.edu.vn, and a copyright notice: "The PETBot Company Copyright. All right reserved Privacy Statement".
